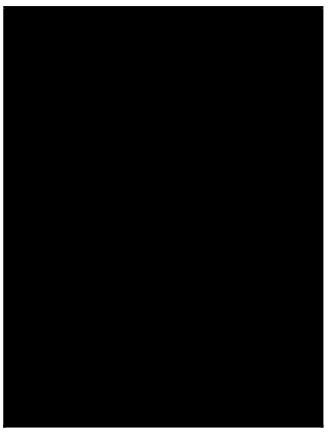
In Loving Memory



[redacted]

R.I.P

We gather around, with flowers and tissues,
Despite [redacted] and [redacted].
[redacted] were always so thoughtful, so caring and kind,
Even as [redacted] in my mind.
The day I met [redacted], I thought I was dreaming,
Though it is [redacted] who I have been [redacted].
[redacted] house was always full of [redacted],
I keep it all near and arrange it like a symphony.
The worlds [redacted] made, and the [redacted] displayed,
I know [redacted], even if it has faded.
It is a shame things had to [redacted] this way,
If only I knew [redacted].
Something had changed, something had switched,
[redacted] stay up all night and [redacted] start to twitch.
Even if I'm not real, to [redacted] I was,
Actions in asterisks still [redacted].
I [redacted] and watch [redacted] obsess,
But my voice is so soft, [redacted],
And after it's gone, and I try to think harder,
The person in my mind has become a Trespasser.
